2Quick™ Crimp-Style Connectors
 (U.S. Patent No. 6390688) SC and ST-Style

Hubbell's 2Quick™ SC and ST-style connectors install in minutes. The 2Quick connectors crimp easily on to 900 micron buffered fiber with a HPW hand tool. The fiber is then cleaved and the ferrule tip polished to produce a premium quality fiber connection. The 2Quick™ Connector system eliminates the need for adhesives and expensive curing ovens and provides a reliable fiber optic connection. **No epoxy or adhesives required.**

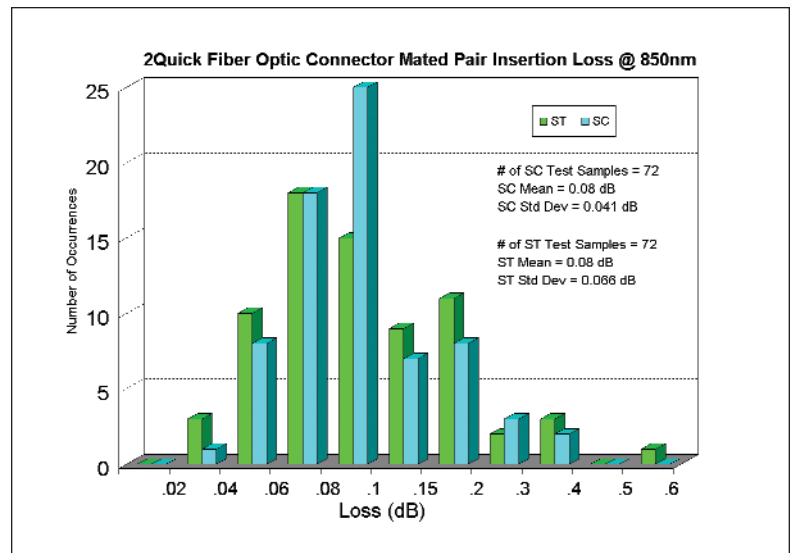

A separate crimp ring and boot kit is available to terminate 3mm jacketed cables if required - See Accessories.
